The only thing that now causes appre-hension is the rumor that the foreign miners are making dynamite bombs, and will inaugurate a reign of terror.

Italians, Austrians and Negroes Forwarded from Pueblo. PUEBLO, Col., July 25 .- Two hundred Italians. Austrians and colored men were shipped from here in a body last night to Welr City, Kansas, for the purpose of taking the places of the striking miners. Every one was made to conceal their destination by the railroad people, and also by the men themselves but from the families of five of the men in the crowd a reporter learned they had gone to Weir City. Many of these men are desperate characters, and if they are attacked they will undoubtedly fight.

The rooms upstairs which the Degas family occupy, were formerly used as a hay loft. There is a large window in the front which reaches down to a level with the floor. It was from this window that the girl tumbled out.

It seems that Ellen went out last evening and came home about 10 o'clock. Her father began to scold her for staying out so late, and beat her.

Whether she jumped out of the window to escape her father's blows or was thrown out during the scuffie is not known. At any rate she fell from the window to the sidewalk.

The distance is only about eleven feet, and she was not badly hurt. At the Harlem Hospital it was said that her back was injured, but that she would be all right in a few days. The girl this morning refused to make any statement. Foliceman Nicholson arrested Degan who was locked up in the Morrisania station. The police report states that Ellen jumped from the window to escape her father, but the neighbors say she was pushed or thrown out.
